AIR RESOURCES DIVISION
CONCORD, NEW HAMPSHIRE

NOTICE OF TITLE V OPERATING PERMIT REVIEW
PUBLIC HEARING AND COMMENT PERIOD

Pursuant to the New Hampshire Code of Administrative Rules, Env-A 622.02, notice is hereby given that the Director of the New Hampshire Department of Environmental Services, Air Resources Division (Director), has received a Title V Operating Permit application from, and based on the information received to date, intends to **issue such Title V Operating Permit to:**

North County Environmental Services, Inc.

Located at:
581 Trudeau Road
Bethlehem, New Hampshire

NCES owns and operates a landfill located on a 310-acre aggregation of land in Bethlehem, NH. The current landfill units (five lined cells: Stages I, II, III, IV and V) occupy approximately 48 acres and municipal solid waste (MSW) has been placed in each of these landfill units.

NCES currently operates an active landfill gas (LFG) collection system, consisting of a network of vertical extraction wells and horizontal gas collection trenches. In addition, LFG is collected from several leachate collection pipes and tanks. Centrifugal blowers are used to extract LFG from the landfill and deliver it to one of two open flares.

The facility-wide potential emissions of sulfur dioxide and carbon monoxide each exceed the Title V permit threshold of 100 tons/yr. The facility is therefore considered a major source for these pollutants under Title V of the Clean Air Act. In addition, the facility is subject to 40 CFR 60, Subpart XXX, which specifically requires a Title V Operating Permit.

The application and draft permit are on file with the Director, New Hampshire Department of Environmental Services, Air Resources Division, 29 Hazen Drive, P.O. Box 95, Concord, NH 03302-0095, (603) 271-1370. The application and draft permit are available through the NHDES OneStop online database at: <https://www.des.nh.gov/onestop/index.htm>. Please contact us at the above address and phone number if you would like to review the application or draft permit but cannot access it through OneStop.

Additional information may also be obtained by contacting **Barbara Dorfschmidt** at the above address and phone number. Requests for a public hearing and/or written comments filed with the Director in accordance with Env-A 622.05, and received no later than **Thursday, November 19, 2020**, will be considered by the Director in making a final decision.

Craig A. Wright
Director
Air Resources Division
